### Policies

Gastrointestinal and Liver Consultants encourage you to investigate your insurance coverage, benefits prior, and any co-pays to having your procedure.

We understand that there are times when you must miss a scheduled procedure due to unexpected issues and/or obligations for work or family. However, when you do not call to cancel or reschedule, you may be preventing another patient from getting much-needed treatment. Conversely, the situation may arise where another patient fails to cancel, and we are unable to schedule a procedure for you due to a seemingly “full” appointment book.

If a procedure is not canceled or rescheduled at least 2 business days in advance of your appointment you will be charged a \$125 fee.

This fee will not be covered by your insurance company.
